

# Roof Mounted Centrifugal Fans – Supply Air

## Application

- Designed for roof installations, up to a maximum pitch of 15 degrees, they are suitable for a wide range of ventilation applications including domestic, industrial and commercial requiring small to large air volumes and medium to high pressures.

## Design

- Galvanised steel base and UV stabilised cowl.

## Motor

- External rotor motor in 240V single phase & 415V three phase, four and six pole options. Motors are speed controllable.

## Protection

- IP54 with integral thermal protection.

## Impeller

- High efficiency backward curved impellor.

## Technical Data & Specification

- Email [info@blaubergventilation.com.au](mailto:info@blaubergventilation.com.au) for all technical data, fan curves, noise specification or any other information required.
