

SS & Heavy Duty Roof Mounted Axial Fans – Vertical Discharge

Application

- Designed for roof installations, up to a maximum pitch of 15 degrees. They are suitable for wide range of ventilation applications including industrial and commercial requiring medium to large air volumes and incorporate low loss non-return weather shutter.

Design

- High efficiency axial impeller with TEFC motor. Hot Dipped Galvanised steel fan casing with galvanised sheet steel vertical cowl.

Motor

- Motors are TEFC type and available in 415V three-phase only. Motors are speed controllable using variable frequency control. Options include motors complying with Exe, Exd, Exn etc. Standards.

Protection

- Standard motors fitted are IP55. Higher degrees of protection are available as options if required.

Impeller

- High efficiency adjustable pitch axial impeller. Impeller options include Aluminium, GRP/Nylon and Anti-static.

Technical Data & Specification
