

Volume Control Dampers

Features

- These Volume Control Dampers are suitable for regulating or shutting off the air flow in air ducts with rectangular or square crosssections.
- The blades are manufactured from aluminium profiles and the frame is produced from galvanized steel sheets.
- The blade action is realised with the help of gears by a linkage mechanism.
- All of the dampers are produced either with damper actuators or with actuator bases or with a manual locking quadrant.

Design

- Frame depth is 152 mm
- Flange is 35 mm
- Side seals & Blade seals (optional)
- High temperature seals also available for smoke relief
- Size manufactured on request
